About **"The Volunteers"** : *A historian explores the surprising connections between two mountain rescue organizations on opposite sides of the world - one near Seattle, Washington, the other in Tyrol, Austria. Take a journey with Mark S. Weiner from America to Austria and back again as he considers the origins and meaning of their work. Both groups have grown from a strong sense of place ... because before you can save a stranger, you first must love your home."*

WE LOOK FORWARD TO WELCOMING YOU!
