Current and Planned Services

STEMM FIRE School Visits

In-person, interactive STEMM career exploration for 6-12 grade students in rural schools across Kansas.

Educonomy Program

Bringing together school districts, community leaders, & rural employers to assess local needs, gather resources, and strategize on how local changes and support could improve student success, decrease rural brain-drain, and provide long-term economic sustainability.

Centralized Resource

A website & newsletters with information about STEMM opportunities across the state, a calendar of events, & a place for students and educators to ask questions and find or share resources.
