Training Announcement

Implementing a Successful Citizen Science Effort

OUT8067

Course Description

Are you curious about how the U.S. Fish & Wildlife Service and other federal agencies use citizen science to support their missions? Are you aware of the benefits citizen science projects provide to science and outreach programs? This course addresses these topics, and more! Regardless of where you are in your citizen science efforts – planning your first project, expanding an existing program, using citizen science data to make natural resource decisions or to enhance educational outreach programming – this course is for you!

This distance learning course is offered by live, instructor-led webinars (WebEx) and accompanied by an on-line classroom (DOI Talent). Participants start, end, and progress through the course together and with course instructors.

Objectives

Upon completion of this course, you will be able to:

- Describe the benefits of citizen science to accomplish your Agency's mission and priorities
- Identify one resource management issue and one target audience for your citizen science project
- Identify components of successful citizen science projects from a variety of case studies
- Know where to access resources and toolkits to begin to develop your project

Date

February 2 – March 9, 2021

Session 1 – Tuesday February 2
Session 2 – Tuesday February 9
Session 3 – Tuesday February 16
Session 4 – Tuesday February 23
Session 5 – Tuesday March 2
Session 6 – Tuesday March 9

All sessions are 2:00 – 4:00 PM ET

Deadline for Registration

November 24, 2020. After this date, contact us for availability.
