SHARE YOUR PRIORITIES FOR BETTER MOBILITY, SAFER STREETS, AND COMMUNITY DEVELOPMENT

Rosemead/Lakewood Blvd is a 28-mile route connecting the mountains to the ocean. It is often used as an alternative to the I-605, which leads to congestion and safety issues on local streets. The Vision Plan seeks to improve safety for vulnerable road users, enhance regional mobility, promote climate resilience, and support community development. This project focuses on the southern segment of the corridor between Pico Rivera and Long Beach.
