

# TWIN CITIES JEWISH POPULATION STUDY

The St. Paul and Minneapolis Jewish Federations, in partnership with Brandeis University's Cohen Center for Modern Jewish Studies, are currently conducting a study of members of the Jewish community in the Twin Cities. The goal of the 2019 study is to gain information and insight into demographics, behaviors, attitudes, and needs of community members that will inform future community programming and planning.

**If you are invited to do so, we strongly encourage you to participate in the study.** You may have already received an invitation by letter, phone, or email by the Cohen Center and its call center at the University of New Hampshire with an invitation to participate in the survey. Because this is a scientific survey with a defined sample frame, you may not receive one of these calls or emails. If you are contacted, the Caller ID will say UNH Survey Center (603-397-0635) — UNH is the University of New Hampshire. Email messages will come from Brandeis University.

Thank you for your continued assistance with this important project. If you have any questions, feel free to contact [Ted Flaum](#) or [Marisa Gage](#).
