**AT ERIE COMMUNITY COLLEGE** 7  
**VISION CARE TECHNOLOGY PROGRAM**  
**(see other side)**

The Vision Care Technology Program offers classroom, clinical and laboratory training utilizing state of the art instrumentation in preparation for professional careers in the vision care field.

Graduates of our program can be found working all around the country in optometric offices, ophthalmology practices and specialty eye centers. Our graduates find employment as opticians, contact lens practitioners, ophthalmic assistants, surgical and laboratory technicians and manufacturer sales reps.

Upon completion of the 2 year Vision Care Technology program at Erie Community College you will be granted an Associate in Applied Science Degree and be eligible to sit for National Certification and New York State licensing exams.

Whether you are looking to begin your career with a full-time position or you are interested in a well-paid part-time position, **the job prospects are excellent.**

If you are a person who enjoys working with people you will find vision care to be a very satisfying and rewarding career choice.

For further information contact the Program Director of the Vision Care Technology Program at Erie Community College-North Campus at 716-851-1570 or visit our website at [www.ecc.edu](http://www.ecc.edu).
