

Family Giving Circle Site Visit- Kid's Meals, March 4, 2017

Ethan Kao Shares Highlights

During the site visit at Kids' Meals, around seven families joined us and helped us make some meals for kids. Families worked together and got to know each other more during the process, and we even made over 1,200 meals! Younger kids were able to decorate bags that are going to be distributed through Kids' Meals. Overall, the visit was fun and educational, as many kids and adults learned much about Kids' Meals and what they do to serve the community. An interesting fact that I learned was that Kids' Meals is the only organization that serves pre-school kids in the nation and that they can make the meals from \$1.80-1.90. Ethan Kao is a freshman at Strake Jesuit High School.
