

Summer Time Is a Busy Time at KDS

Although classes are out for the summer, activity on the KDS campus is in full swing with spruce-ups and maintenance projects being completed in preparation for another school year. Custodial staff, maintenance staff, and students employed by the summer Work Scholarship Program are busy cleaning, waxing, renovating, painting, repairing, mowing, and much more. The new school year starts on August 8th.

New windows were installed in the Helen Pouch Building as part of a multi-year project of the NSDAR Junior Membership Committee.

A canopy has been added to the Indiana-Ohio Playground to give some shade to teachers and students on hot, sunny days.

New flooring is being installed in the lobby of the Lunchroom, the hallway of the Pouch Building and in the Middle School Library.

The Waggoner Tennis Courts are being repaired and refinished.

Mowing and string trimming are everyday activities for the students in the summer Work Scholarship Program.
