

A New School Year Begins

The 2018-2019 school year for Kate Duncan Smith DAR School began on August 8th with close to 1,400 excited students descending on the campus. Nervous anticipation soon made way for rules and routines for students in Pre-K through 12th grade.

These students in Annie Conwell's 3rd grade were excited to return to class.

School maintenance staff and administrators spent the summer preparing for another school year, and their hard work paid off, as everything was 'ready to go' for the big day.

Everyone at KDS is excited in their own way for a most successful school year!

High School students wasted no time getting back into the normal routine of classroom activities.

Middle School students learned to quickly run/walk their laps so that they can move on to more fun activities in P.E.

Pre-K students are learning all about having good manners and good eating habits at lunchtime.

But play time is what the students enjoy most!
