

KDS Kids Go to Summer Camp

The KDS Learning Resource Center recently studied a unit on summer camp. Because several of the students had never been to camp, the teachers decided to recreate the experience. They set up a great summer camp in Becker-Horton Hall for the students to enjoy, including tents, hammocks, cots, and sleeping bags. The kids participated in various events including tie-dying a t-shirt, making a necklace, and relay races. The students all had a wonderful time with all the activities, but their absolute favorite was making and eating s'mores!
