

KDS Beta Club Students Excel at State Conference

Beta Club is a service organization that instills achievement, character, leadership and service in its members. Each year, the Beta Club has national and state level conventions. Any Beta Club member can compete at the State Convention. To compete at Nationals, a club member must have placed first, second or third in a competition at the state level.

KDS Beta Club students competed in various competitions this year in academic, visual arts and talent divisions. The KDS students especially enjoyed the living literature competition, the robotics competition, the technology media competition, and the character skit competition.

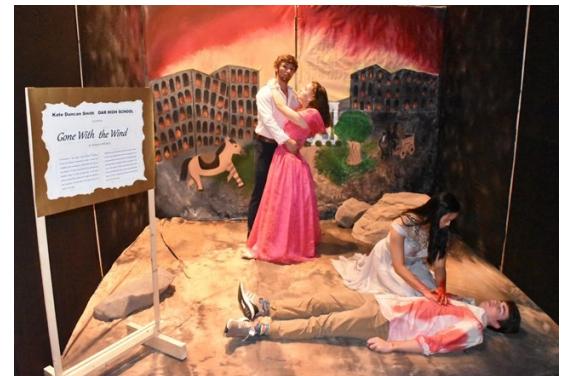

The awards ceremony was Friday morning with KDS members winning eleven awards in arts and academics while competing with hundreds of others from all across Alabama.

These smiling members of the KDS DAR High School Beta Club were proud to represent their school.
