

NFRC Green Track Event

Hilton Charlotte Center City, NC
Monday, September 23, 2019

The NFRC is hosting the kickoff event of our Educational track that will focus on green and sustainable building and the components that play into that including consumer behavior, code compliance, and Practical use of the NFRC label.

This event will bring together our current membership which is primarily manufacturers and organizations within the green and sustainable building industry. This event will give attendees the opportunity to learn more about NFRC, network with other industry professionals, and learn about activates and trends among the building industry.
