

As part of an agreement with USDA APHIS PPQ, the Washington Invasive Species Council is hosting a training workshop for employees of all Washington ports! This free event will be on **June 16<sup>th</sup> from 9 am to 3:30 pm** at the **Customs and Border Protection Fife Office**. The in-person workshop will provide up-to-date information on priority invasive species both new and existing, pathways of introduction and spread, and how to report an invasive species sighting through chain of command structures and through the council's WA Invasives app. We will also be including two activities for egg mass ID and personal decontamination practices. Ultimately, this will be a training and refresher alike for all our important first detectors employed by ports of entry.

We will be sending out the agenda shortly, and **FIVE** Washington pesticide license recertification credits have been awarded. Lunch will also be provided, so it is important to register by June 11<sup>th</sup> to make sure we can provide you with some tasty food!

**Registration is here:** <https://forms.office.com/Pages/ResponsePage.aspx?id=F-LQEU4mCkCLoFfcwSfXLVZMQR0M8FRKoi8WNCU7QGNOVINR1Y3SIzSTTVDWlRRUlo2UTNBUTlWVy4u>
