

SCRPC's Annual Dinner

Over 150 guests attended this year's Annual Dinner at Arrowhead Golf and Event Center on March 16th. The guest speaker was Ray Hexamer, President and CEO of the Stark Economic Development Board, a non-profit economic development organization that has a mission of expanding and attracting business in Stark County.

Hexamer's presentation, titled "What is Up (and Down) in Stark," focused on improving the local economy in Stark. He stated, "We place our attention on businesses that export goods and services that are moved out of Stark County and import dollars into Stark County." The presentation revealed many interesting statistics. He engaged the audience by having them participate in "higher or lower" trivia questions regarding various facts and figures about Stark County. His entire presentation is located on our website under resources - seminars and workshops. Please check it out.
