

The Community Development Department has spent the past several months planning and preparing for the upcoming funding year. In March, the proposed funding plans for the FY2022 HOME and CDBG programs and FY2023 and FY2024 CDBG infrastructure projects were presented to the public. In the month of April, after a 30-day comment period closes, the Board of Stark County Commissioners will adopt the previously mentioned funding plans. Stark County Regional Planning will then submit the application to HUD.
