

Two Commercial Demolition Projects Nearly Complete in the City of Alliance

In April 2021, the city of Alliance requested funding assistance from the Stark County Land Bank for the demolitions of four blighted, commercial buildings along E. Main Street. These structures are located at 172/176 E. Main Street and 530/536 E. Main Street and were estimated to cost approximately \$235,000 to demolish.

Through its "Demolition Assistance Program", the Stark County Land Bank entered into two agreements with the city of Alliance to provide funding reimbursement not to exceed 50% of the hard-costs of the demolition projects. The buildings were demolished in mid-August. Necessary work/repairs on the shared exterior walls is to be completed in the next few months and subsequent reimbursement to the city is expected before the end of the year.
