Staying healthy is more important than ever.

Get a no-cost flu shot* at any network pharmacy.

*Flu shots and vaccines may not be available in all pharmacies at all times. Call for availability and to make an appointment, if needed. Most vaccines require a prescription (except for the flu shot). The flu shot and many vaccines to treat common illnesses are generally covered under the Affordable Care Act by non-grandfathered group health plans and non-grandfathered individual and group health insurance coverage typically with no cost sharing if provided by an in-network provider, consistent with specified dosage limits and satisfaction of age and other vaccine specific requirements. Other restrictions may apply. Check with your health plan if you have any questions about your benefits.

Kepting an eye on your health? Flu shots can help everyone stay healthier during flu season and the coronavirus pandemic (COVID-19).**†

Out and about? Get your flu shot at more than 68,000 convenient locations, including CVS Pharmacy®.

What will you need? Just take your prescription card and valid photo ID.

Is it really no cost? Yes. No copay.†† No cost to you.

Visit Caremark.com to find a vaccine pharmacy in your network.

††Copayment, copay or coinsurance means the amount a member is required to pay for a health care service in accordance with a Plan, which may be a deductible, a percentage of the price, a fixed amount or other charge, with the balance, if any, paid by a Plan.
