

# RESOLUTE's Carbon Fiber Wing Riggers just got better.

## Lighter. Stronger. Durable.

Four years ago we introduced aluminum wing riggers and crews at all levels used them with tremendous success. How do we top that? RESOLUTE's new Carbon Fiber Wing Riggers – The new Carbon Fiber Wing Riggers are lighter, stronger and more durable. They are also:

- Low to allow maximum hand clearance, yet still allow full shoe/foot stretcher adjustment.
- Narrow inside the boat to allow 90 degree compression and full lay back.
- Aerodynamically shaped to fly faster and provide excellent water clearance.

Row a Z with Carbon Fiber Wing Riggers - Go Faster...Longer.

Incredibly flexible financing makes your investment affordable. Email us at [sales@resoluteracing.com](mailto:sales@resoluteracing.com).
