

E-RESOURCE FOR NURSING EDUCATION ON CLIMATE-DRIVEN VECTOR-BORNE DISEASES

Based on CASN's *Guidelines for Undergraduate Nursing Education on Climate-driven Vector-borne Diseases*, the e-resource will be an open-access interactive learning tool for students, educators, and nurses in practice!

Topic areas:

- **Climate change: general overview**
- **Vector-borne diseases (VBD) in Canada**
- **Primary and secondary prevention of VBD**
- **Tertiary prevention of VBD**
- **Advocacy**

- Interactive modules
- Virtual case scenarios
- Self-assessment quizzes
- Critical thinking questions
- Key literature and resources
