

Closing Remarks from former Board Chairman Delvin M. Thomas

'Success is not final; failure is not fatal. It is the courage to continue that counts.'

My team didn't fail. Mr. Hurt and I worked many long days and nights and traveled thousands of miles to find resources and others who believed in our mission. I'm forever grateful to his dedication to bring our vision to light.

My parents taught me to be kind and to stand for those who couldn't stand for themselves. My mission is to continue to build quality, safe, affordable housing for all who need it and, if that's able to change the projection, success would have, again, been accomplished.
