

Spotlight on: Service To Assist The Magnolia School District's Summer Food Distribution

When the Magnolia School District's Superintendent of Schools, Frank Donovan, asked if GOALS could pitch in on occasion to assist with emergency food distribution at the height of the Covid19 crisis in our area our answer without hesitation was YES! Off to west Anaheim journeyed a squad of GOALS Cadets/AmeriCorps Summer Associates ready to serve. Led by the indefatigable coach Jenny Rodriguez, who seemed to be in 3 places at once all summer long, her crew distributed mid-day meals along with trademark good cheer and positive commentary that brought smiles to so many grateful family members. GOALS has a special place in our

hearts for Frank and his district as we have had a positive collaboration with a GOALS ice hockey team at the Maxwell Elementary School for many years and look forward to building even more programs in support of this progressive and high performance school district in the years to come! We were delighted to help with multiple service missions this summer "out west" and next year plan to map out much more to meet whatever needs surface by then!

The annual GOALS "Summer of Service" was supported GREATLY by the Corporation For National & Community Service's "VISTA" arm. GOALS was fortunate to enlist 40 "Summer Associates" who helped lead other volunteers while donating more than 27,000 service hours in support of community initiatives overseen by GOALS.
