

**WHO WE ARE** SOILMAP is a full-service agronomic center providing precision agriculture solutions through services, sales and support to customers looking to add value to their farming operations. These products and services assist farmers in gaining insight into each field they operate in order to improve management decisions. All the services and solutions offered by SOILMAP are customized to each farmer's individual needs to optimize specific objectives.

**1**

**INTEGRATION**  
*SOILMAP integrates with multiple accounting software packages*

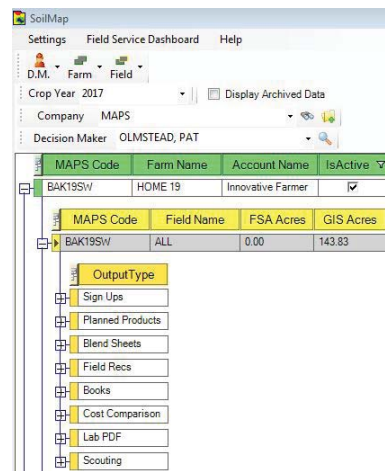

- Create work orders in SOILMAP and deliver to your accounting provider
- Reduce duplicate entry
- Save time
- Retain accounting history

**RECORD KEEPING**  
*Maintains field history for easy access*

**2**

- Field boundary for all events
- Create summary reports for plans and bookings

**3**

**AUTOMATED BLENDER**  
*Loops back into the Accounting Interface*

- Send orders to a blender
- Receive actuals from the blender
- Create an order in blender and pass to accounting
- Create buggy cart orders in SOILMAP and send to blender

SOILMAP Desktop is integrated with multiple accounting programs allowing customer accounts, split accounts, credit status and products to flow seamlessly back and forth with instant access.

With the accounting interface, redundant data entries are reduced, accurate field history is stored and orders are sent automatically to blender.

SOILMAP Accounting is one more tool that manages time and resources efficiently and solidifies your operation.

**Plan Summary Reports**  
**Booked Summary Reports**  
**Reduce Time With Duplicate Entry**  
**Visually See All Fields On The Map**

**BENEFITS of ACCOUNTING**
