

Fall Semester Class Schedule 2026

Locations:

Huntington: FSL SeniorNet @ Family Service League, Olsten Family Center, 790 Park Ave, Huntington, NY 11743

Bay Shore: FSL SeniorNet @ Family Service League, Iovino Family Center, 1444 Fifth Ave, Bay Shore, NY 11706

Blue Point: Henrietta Acampora Cottage, 39 Montauk Highway, Blue Point, NY 11715

Yaphank: Longwood Youth Sports Assn. @ The Boulevard, 210 Meadows Blvd. West, Yaphank, NY 11980

Introductory Classes

PC Computing Basics 1

4 sessions of 2 1/2 hours

Cost: \$45.00

HUNTINGTON LAB: Mondays from 9:30 AM - 12:00 PM on Oct 19, 26, Nov 2, 9

To begin this class, you need to know nothing about computers and simply have a desire to learn. Students will learn how to properly start and stop a Windows computer. From there we will teach and give you experience with the most used computer functions: using the mouse, keyboard, and desktop, word processing, accessing the Internet, creating and responding to emails, and how to use flash drives for performing classroom exercises. **Prerequisite: none**

PC Computing Basics 2

4 sessions of 2 1/2 hours

Cost: \$45.00

HUNTINGTON LAB: Mondays from 1:00 PM - 3:30 PM on Nov 30, Dec 7, 14, 21

YAPHANK: Tuesdays from 9:30 AM - 12:00 PM on Oct 6, 13, 20, 27

BLUE POINT: Wednesdays from 9:30 AM - 12:00 PM on Nov 4, 18, 25, Dec 2

This four-lesson class will build on the skills you started to develop in PC Computing Basics 1. We will teach you to enhance your desktop, the basics of the file system, and advanced features of word processing. We will teach you how to access the Internet and how to save your most frequently visited websites. Additionally, you will learn how to use the new free Microsoft Outlook mail client.

Prerequisite: PC Computer Basics 1 or comparable skills.

Mac Computer Basics

3 sessions of 2 1/2 hours

Cost: \$35.00

HUNTINGTON LAB: Thursdays from 9:30 AM - 12:00 PM on Nov 5, 12, 19

Come join your fellow seniors and learn the amazing things a Mac LAPTOP can do. We will also cover the App Store, Apple Pay, Mail & Messages, Internet basics and so much more. Learning about System Preferences and how to navigate the Dock will help you use your Mac in a more productive way.

You will need to bring your laptop (and mouse) to class. Please make sure your laptop is charged and running the latest operating system, Sequoia Mac OS15, which will be updated in iOS 26 to Tahoe.

Only have a desktop? Feel free to use one of our Mac laptops in the class.

Chromebook: Basics and More

3 sessions of 2 1/2 hours

Cost: \$35.00

BAY SHORE ANNEX: October 21, 26, and 28 10:00-12:30 PM

Discover the essentials and the ease of using a Chromebook in this beginner-friendly course. Students will learn how to navigate the interface, save and retrieve files, manage apps, browse the web, and be introduced to Google tools like Docs and Drive for productivity. Accessibility options aid seniors in personalizing the device for their needs.

Students with Gmail accounts should know their ID and password. Students are invited to bring their charged Chromebooks to class.

The Computer

New Class

Mac Magic: Introduction to Apple Intelligence

2 sessions of 2 1/2 hours

Cost: \$25.00

HUNTINGTON LAB: Wednesdays from 9:30 AM - 12:00 PM on Oct 21, 28

Technology is changing so fast it feels like it's happening faster than we can keep up. Apple Intelligence is designed to make your life easier, not more complicated. This is because it's already built into your Mac and has even built direct access to ChatGPT into its operating system. In this class, we will explore what Apple Intelligence is, what it can do and how you can use it in your everyday life. We'll learn simple ways it can help with writing emails, answering questions, creating fun images, improving your photos and much more.

You will need to bring your Mac laptop to class in order to participate. Please make sure your Mac is fully charged and it's been updated to the latest operating system, which currently is Mac OS 27 Golden Gate. Prerequisite: none

Artificial Intelligence: Hands On

1 sessions of 2 1/2 hours

Cost: \$15.00

HUNTINGTON LAB: Mondays from 9:30 AM - 12:00 PM on Oct 26

BAY SHORE ANNEX: Wednesdays from 10:00 AM - 12:30 PM on Nov 18

There has been a lot of buzz around AI lately. But what is this latest technology craze really about? How does it work and what are the risks? Learn about the state of AI at the moment and get hands on experience using the biggest names in AI, Microsoft's Copilot and OpenAI's ChatGPT.

The Internet

Google Docs: Beginners

2 sessions of 2 1/2 hours Cost: \$25.00

Docs

YAPHANK: Tuesdays from 10:00 AM - 12:30 PM on Nov 10, 17

Google provides a complete suite of FREE Apps for word processing, spreadsheets, email, calendars and more. This class will teach you the basics of the Google Docs word processor to create and format documents. Write a letter, create minutes from a meeting, produce a newsletter; it's all possible using Google Docs.

Google Docs: Advanced – Basics and More

3 sessions of 2 1/2 hours Cost: \$35.00

Docs

**BAY SHORE ANNEX: Monday, Nov 2 from 10:00 AM - 12:30 PM and
Thursdays, Nov 5 and 12 from 10:00 AM - 12:30 PM**

In this class, you will learn how to use this word processor for your daily needs. This class will not only teach you the basics of word processing. You will also learn how to convert your file, revert back to earlier versions and download it to your computer and/or share it with others.

This course is appropriate for PC, Mac, Chromebook and tablet users.

A Google account is needed to complete the advanced tasks

Perhaps you haven't had time for a full class and just want to solve one technical problem.

We offer personalized problem solving for smartphones, tablets, laptops, and desktop computers (Mac, Chromebook and PC). Just let us know what you want to learn and we'll match you with an experienced teacher. **You coordinate the day and time with the instructor.**

Available at Huntington, Bay Shore, Blue Point and Yaphank

Cost: \$20 for each hour!

Google Forms

1 session of 2 1/2 hours Cost: \$15.00

HUNTINGTON LAB: Wednesdays from 1:00 PM - 3:30 PM on Nov 18

BAY SHORE ANNEX: Mondays from 10:00 AM - 12:30 PM on Nov 16

The Google Forms Class will cover these topics:

- Access and open Google Forms
- Create a simple form
- Add and edit questions
- Choose appropriate question types
- Share a form with others
- Change appearance (theme)
- Control settings
- View and Edit responses
- Use basic branching (sections)

Google Sheets: Basics

3 sessions of 2 1/2 hours Cost: \$35.00

New Class

HUNTINGTON LAB: Tuesdays from 1:00 PM - 3:30 PM on Nov 24, Dec 1, 8

Google provides a complete suite of FREE Apps for spreadsheets, word processing, email, calendars and more. This three-lesson class will show you how to use the Google Sheets app to create and format spreadsheets. Learn how to track your expenses, keep stats on your favorite team, cost out a planned trip, produce an invoice; it's all possible using Google Sheets. The class is designed for those who are entirely new to spreadsheets, those who have started to use Sheets but want to master more of its capabilities, and those who want to migrate from another spreadsheet program

Mobile Devices

iPhone: An Introduction

4 sessions of 2 1/2 hours Cost: \$45.00

HUNTINGTON LAB: Wednesdays from 1:00 PM - 3:30 PM on Oct 14, 21, 28, Nov 4

You'll learn about iPhone settings and navigation, how to use the iPhone's native apps, how to find and download third-party apps, how to use the iPhone camera, Safari – Apple's internet browser – how to send email and text messages, how to use Siri (so you don't have to type!), and even how to make phone calls! You will also be introduced to Maps, the Calendar, Reminders, and Notes Apps, and some basic uses of iCloud. In short, this course will teach you everything you need to know to be able to use this incredible device.

Apple Watch: What You Want to Know

2 sessions of 2 1/2 hours Cost: \$25.00

HUNTINGTON LAB: Thursdays from 9:30 AM - 12:00 PM on Oct 22, 29

Since 2015, when the Apple Watch arrived, it has been gaining more and more functionality, which means more and more to learn about using it to its full potential. First and foremost, let SeniorNet show you what the Apple Watch can do to help you with emergencies in your everyday life: it can monitor your heart rate and alert you to a problem, detect falls and car crashes, and then automatically call for help. Your Apple Watch can be your phone as well. You can answer and make phone calls without having your phone ring and disturb others, and read and send text messages. It functions as a fitness tracker and even alerts you when it's time to stand up and move around for a few minutes. Join the SeniorNet Apple Watch class to explore this amazing "wearable device" and learn more about it and what it can do for you.

Android Phone

4 sessions of 2 1/2 hours Cost: \$45.00

HUNTINGTON LAB: Tuesdays from 1:00 PM - 3:30 PM on Oct 27, Nov 3, 10, 17

In this class, you will learn about settings, camera, email, web browsing, calendar, music, and apps on your Android phone. You will also learn how to customize your phone, send texts, organize your pictures, and much more. All these tools and functions will help you make the most of your phone.

Social Media

YouTube – The APP

2 sessions of 2 1/2 hours Cost: \$25.00

New Class

YAPHANK: Tuesdays from 10:00 AM - 12:30 PM on Nov 24, Dec 1

BAY SHORE ANNEX: Thursdays from 10:00 AM - 12:30 PM on Oct 8, 15

Cute pets, a step-by-step tutorial on something you've been meaning to learn, a how-to video for that project you've been putting off, a lesson on almost any hobby or skill - whatever you're curious about, YouTube probably has it! In this friendly introduction, we'll walk you through how to find and comfortably watch videos at your own pace. You don't need an account to watch, though we'll show you what signing in adds if you'd like more.

Canva: An Introduction and More

4 sessions of 2 1/2 hours Cost: \$45.00

New Class

HUNTINGTON LAB: Mondays from 9:30 AM - 12:00 PM on Nov 23, 30, Dec 7, 14

This is a special class designed for those of you who have been using Microsoft Publisher and now will be working with Canva, an online graphic design program, as its replacement. You have created newsletters and calendars for your organization and do not want to have to recreate your templates. In four lessons, we will get you started on your way.

Canva is an online graphic design app. It can help you transform the way you create with AI-powered tools. It is very user friendly and offers a large assortment of templates, images and design elements to help you make cards, invitations, certificates, newsletters, Facebook pages and so much more.

Class 1 & 2 – You will learn how to navigate through the many elements of this program. Using templates, images, and design elements you will learn the basics in creating invitations, flyers, certificates and publications.

Class 3 & 4 – Once you understand the basics, learn how to import your publications from Publisher, easily edit them and create templates. Students will be invited to bring their publications to the last class. We will work with you to import them into Canva.

New

App Workshops

Each workshop is 1 ½ hours.

Cost - \$10.00 each

Register on our website!

All Trails, NY State Parks Explorer- the Apps

Blue Point - Fri, Oct 09

10:00 AM

This workshop is appropriate for iPhone and Android users.

ALLTRAILS is an outdoor navigation app used by hikers, walkers, runners and cyclists to search over 500,000 trails worldwide by location, difficulty, length and features (like views, waterfalls, kid-friendly, dog-friendly) and navigate the selected adventures with reliable maps and information.

The **NEW YORK STATE PARKS EXPLORER** app offers helpful information including location, features and amenities about a wide variety of destinations and adventures available across the state's vast system of state parks and historical sites, including reliable maps for trail navigation.

Apple Password App

Bay Shore Annex - Wed, Oct 21

1:00 PM

Blue Point - Wed, Nov 04

1:00 PM

This workshop is appropriate for iPhone iPad and Mac users.

Apple Passwords can generate strong, unique passwords that are difficult for others to guess, reducing the risk of password reuse. It securely stores your passwords and makes them available when you need to sign in, so you don't have to remember every password yourself. This makes managing your online accounts both safer and easier.

Passport Parking & MTA Train Time Apps

Huntington Lab - Thu, Nov 05

1:00 PM

This workshop is appropriate for iPhone and Android users.

The **Passport Parking** app lets you pay for parking in Huntington and other towns on Long Island, with other towns coming soon. Heading to Broadway? The **MTA Train Time** app gives all LIRR train schedules and lets you purchase train tickets on your phone. Together these apps will help you get around.

Learn in the comfort of your home:

Upcoming Free Zoom Events:

- **Android Phone: Getting Started – Tuesday, October 6 – 2:00 PM**
- **Smartphone Photography – Tuesday, October 20 – 2:00 PM**
- **Google: More than a Search Engine – Wednesday, December 2 – 2:00 PM**
- **Researching Trusted Online Medical Information – Thursday, December 3 – 2:00 PM**

To attend any of the above, go to our website, www.seniornetli.org and under Current Courses, click on webinars and seminars and register for the event of your choice.
