

You are cordially invited to the Youth of Tomorrow Student Fundraiser!

This fundraiser is led by a group of seven visually impaired students participating in Vista Center's Youth of Tomorrow program; Natasha, Lillian, Raghav, Santiago, Paulina, Yaddi, and Aaron. For the virtual event, the members of this group will present what forms of assistive technology has helped them in their daily life to aid students who are also visually impaired. There will be fun icebreakers throughout the event, such as guessing song lyrics and a round of conversation starters. Additionally, there may be live entertainment in the form of a band or a music artist for the guests' enjoyment.

Who: Youth who are blind and visually impaired and their families and teachers
Date: June 5, 2021
Time: 2 p.m - 4 p.m PDT
RSVP: Please register for the Zoom link

If you have any questions please email: vistacenterstudents@gmail.com

The goal of this fundraiser is to introduce visually impaired students to forms of assistive technology to help them become organized, punctual, and efficient in their academic lives and help raise money towards future activities geared toward life after high school and the Youth of Tomorrow Program.
