

TEALS Program

Volunteer to give students access to computer science

Medgar Evers College Preparatory School, Brooklyn, NY

Help teachers equip students with computer science skills

The Microsoft Philanthropies TEALS (Technology Education and Literacy in Schools) Program connects technical volunteers with high schools to team teach computer science (CS) alongside classroom teachers. By increasing the number of CS teachers, the TEALS Program gives high school students the opportunity to participate in equitable high-quality CS education.

 **21,000**
students served

 **1,800**
volunteers from
750 companies

 **625**
TEALS
schools

 **29** US states,
Washington DC, and
British Columbia, Canada

Volunteers are the backbone of TEALS

TEALS volunteers are essential to inspiring the coders and creators of tomorrow. They work directly with students while coaching teachers to lead courses on their own. Anyone with a CS background and a passion for giving back can apply.

“ I learned so many things from my CS class I wouldn't have gotten from books or on my own. Our TEALS volunteers were actual programmers who shared what they were working on. ”

—Saad Rafiq
TEALS student, Austin, TX

Training to set you up for success

Volunteers participate in 40 hours of required summer training, then work with a classroom teacher for further guidance and support.

A week in the life of a TEALS volunteer

You can expect to volunteer directly with students one to three times a week, and plan lessons or assist your teacher outside of class along the way.

TEALS volunteers can make a real difference

Henry Ford Academy, Dearborn, MI

“ I’m passionate about investing in particularly underserved and underrepresented kids in the tech industry, to show them they have opportunities. ”

—Brandy Foster
TEALS volunteer, Detroit, MI

90%+

volunteers said that TEALS was a rewarding volunteer experience*
