

# Illuman Council Practice

---

**By Anthony Monticchio**

Anthony Monticchio is a member of the Illuman Council Practice Guiding Circle (and a big hockey fan).

Now that our friends in St. Louis have taken home Lord Stanley's Cup, if you are looking for a way to spend twenty minutes, give Illuman's newest video release a [listen here](#).

Released by the Illuman Council Practice Guiding Circle, the video features the voices of twenty Illuman men, who share the impact Illuman Council Practice is having on their lives. It closes with words from Fr. Richard Rohr on the challenges that initiated men face after returning home from the MROP experience. Like all great artist pairings (i.e. Elton John and Bernie Taupin), Illuman's Magnum Opus is the blending together of two distinct energies: one from the Men's Rites of Passage (MROP) and the other from the Journey of Illumination (JOI). Both the dying (MROP) and the rising (JOI) are required on the path toward wholeness.

Our hope in releasing the video is to inspire other men to give Illuman Council Practice a try, either physically or virtually. No prior Men's Work experience is required, just the simplest and most difficult of desires—a desire to be Love.

More information on the Illuman Council Practice can be found [here](#).

Glad to be on the Journey together.
