# Make Learning Real - Across Every Grade in Every School

Project-Based + Real-World Learning for K–12, built for Missouri schools,  
aligned to Missouri Learning Standards.

## 5 PAIN POINTS MISSOURI SCHOOL LEADERS KNOW TOO WELL:

- ✗ Educators are exhausted by disjointed initiatives and overloaded schedules. **Passion is fading fast.**
- ✗ Too many students are **just "doing school"** — completing worksheets, memorizing content, and checking out emotionally.
- ✗ Traditional instruction is **not producing deeper understanding** or transferable skills.
- ✗ **One-and-done PD days** don't shift practice or improve culture long-term.
- ✗ Without training for Leadership and Classroom Teachers, **Real-World Learning doesn't stick.**

*"PBL really hits all of our learning paths - it's not one more thing, but the thing that ties everything together."*

”

Ryan Asher,  
Assistant Superintendent of  
Woodford County Schools

## 5 OUTCOMES FROM THE PBL MASTERY PROGRAM™:

- ✓ Teachers **see the vision** and have resources to create **client-connected projects**.
- ✓ Students **solve real-world problems**, take ownership of learning, and build essential skills like **communication, critical thinking, and agency**.
- ✓ A clear, 3-year roadmap that develops both leaders (change process) and teachers (instructional model) to **full sustainability** by year 4.
- ✓ Your leadership team is equipped to drive change, align initiatives, and create **lasting instructional transformation**.
- ✓ Schools see increases in **attendance, engagement, and achievement** — while preparing learners for life beyond the test.

***Client-connected projects. Real-World Learning.  
Empowered Students.***
