

# Edmentum Career: Trade Prep Powered by Interplay

## Skilled Trades High School Programs for In-Demand Jobs

Unlock an immersive job-ready program for nine in-demand skilled trades to help students explore, upskill, and build future-proof careers. Offering industry-recognized instruction to high school students, Trade Prep combines expert-created career exploration with immersive, 3D simulations to help districts design a scalable, affordable program that results in better careers and better lives.

Appliances

Facilities Maintenance

Clean Energy

Electrical

HVAC

Multi-Family Maintenance

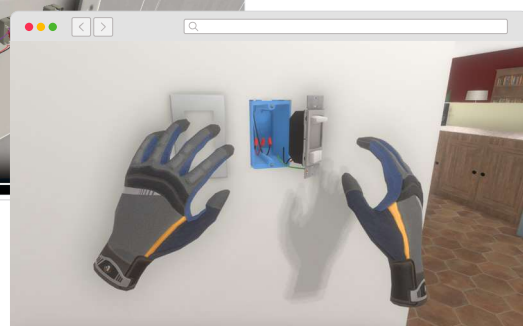

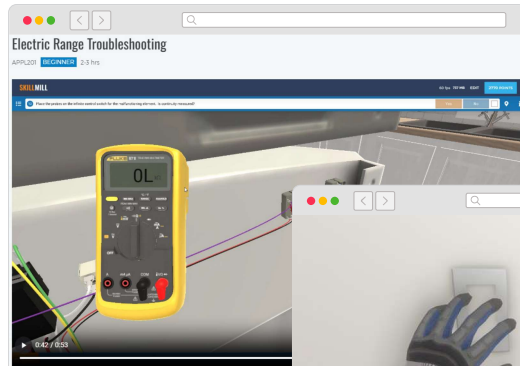

Plumbing

Residential Construction

Solar

### Students Connect Learning to Earning

Re-engage with 3D simulations that let students explore, choose, and build real-world job skills.

### Teachers Help Launch Careers, Not Just Graduates

Give students pre-apprenticeship experiences and start building more competitive graduates.

### Administrators Create Programs that Scale

Reach more students with scalable, affordable digital-first learning that reduces expensive lab costs.

# Access Immersive, Real-World Experiences

Trade Prep brings experiential learning to digital programs, putting industry-standard training into the hands of high school students. Create a faster, more successful launch for students into industry, making them competitive candidates for well-paying jobs that can change the trajectory of their lives.

Add Trade Prep Powered by Interplay to your Edmentum Career subscription and unlock additional CTE pathways focused on high-demand construction skilled trades. These programs are available through the Interplay platform.
