

THE JIM KNIGHT

Impact Network

powered by  engage2learn

The Membership That *Multiplies* Your Leadership

Expand the bandwidth of your principals and coaches with the only human & AI-powered, professional support ecosystem for instructional leaders.

The Network Helps Leaders:

Reclaim 7 Hours Every Week.

GroweLab's AI-assisted tools eliminate the busywork of coaching. By automating feedback drafting, observation tracking, and documentation, leaders get hours back to actually be in classrooms.

Elevate Your Leadership with Smart Feedback.

Stop putting out fires and start driving outcomes. Through live methodology workshops and an on-demand library, leaders build the skills to move from building managers to highly effective instructional coaches.

Connect & Learn from Colleagues Nationwide.

Our virtual collaboratives and private community aren't just "more meetings" — they are an on-demand lifeline. Leaders save time by getting immediate answers and proven resources from peers doing the exact same work.

10x Your Reach via Quick Walks.

Because your campus gets a site license, everyone on your campus receives 24/7 access to GroweLab's AI agent for immediate instructional support between walkthroughs, taking the daily pressure off your calendar.

Give principals and coaches the time, tools, and backup needed to drive measurable improvements in both teaching quality and student outcomes.

Ready to multiply your impact?
