

### **JAMES S. FLOWERS, PHD, LPC-S**

For more than 25 years, Dr. James Flowers has been one of the most recognized and respected names in the field of chronic pain, pain recovery, and addiction. With his broad educational background and extensive experience in both the evaluation and treatment of chronic pain and co-occurring addiction, he is recognized as an expert.

Dr. Flowers has completed several fellowships in behavioral pain management complete with clinical rotations.

He personally developed pain and addiction recovery programs for some of the best-known healthcare and addiction treatment centers in the country. He directed programs integrating assessment and treatment planning with a course of treatment to promote successful recovery.

Dr. Flowers also co-founded several well-known, exclusive treatment programs in the state of Texas, dedicated to his passion – that of designing multidisciplinary addiction treatment with clinical protocols, to help individuals suffering from addiction, chronic pain and other underlying disorders, successfully recover. With a demonstrated commitment to create positive change in the lives of this clients, he is dedicated to progressive healthcare, human healing, and to developing healthcare systems which best serve this population.

Dr. Flowers has been arranging assessments and evaluations for many years, but in founding J. Flowers Health Institute, he has advanced the process to satisfy a great void - to provide truly comprehensive assessment and evaluation for those who need diagnosis, and to then develop post-evaluation treatment recommendations. Having spent over 28 years in the Texas medical and clinical community, Dr. Flowers is uniquely qualified to assemble some of the finest health care professionals in the world to perform these evaluations and treatment.

Over the years, Dr. Flowers' passion and dedication to his clients, as well as his unique approach, has earned him an exceptional reputation as one of the nation's premier experts. He is a popular public speaker and lecturer to audiences across the United States and abroad and has led an exceptional and distinguished career.

*"Everything is about you.  
Everything is about your health."*
