OVERVIEW

Effective implementation of mandated enrollment procedures is essential to the success of ELLs, as they begin their journey in NYS schools. During this professional development session, participants will become more familiar and knowledgeable about the New York State Education Department (NYSED) mandates, guidelines, and resources for the identification of ELLs. We will review the 2024 NYS guidelines regarding Newcomers with a focus on the Screening, Identification and the Placement process for ELLs. We will discuss the different subpopulations of ELLs, including students with Interrupted schooling and the services available to them in NYS.

The NYS Statewide Language RBERN is an approved Sponsor of CTLE pursuant to Section 80-6 of the Regulations of the NYS Commissioner of Education. All participants must fully attend all required parts of the professional development and be actively engaged in the learning process (as demonstrated in the breakout rooms and/or chat discussions) in order to be awarded CTLE credit.
