

# PIEI-KENYA-DOWM

## Dorcas Orphans & Widows Ministry

**Velux Macharia**  
**Birthdate: October 7th, 2007**

In 2018 a mission team came from the US to visit us. Many of the team members sponsored DOWM Orphans. Mr Dave in the photo above chose to sponsor Velux. To this day he continues to sponsor him and provides so much to help in his life. He helped Velux through Mbau-ini primary school, Matathia Junior School and next year, Lord willing, on to boarding school as he completes high school moving toward the final step of education - college or vocational school. His desire for the future is to be a surgeon.

His life will change quite a bit as Velux moves on to boarding school. We know he is thankful for all his sponsor has done for him. Velux will do his best to make really good grades so that he can get good test scores and be able to go to college and become a Doctor/Surgeon. Our prayers are with him.

I was surprised to hear that Velux's favorite sport is high jump. I wonder if it is like the US track and field event.
