Precious Mukuhi became a part of the DOWM Family in March 2021. Precious came to live with her great grandparents in Korio after the death of her young mother. Her mother was single and there is no father to help care for her.

Her great grandparents are very needy. Their only source of income is a small garden when the season is good. They are so thankful to the DOWM Ministry and their help in caring for the needs of Precious. She has been blessed with a DOWM sponsor who helps by providing for her physical, health and educational needs.

Precious is attending mbau-ini Primary School. She is also enrolled and attending the DOWM after school program to help her move along well in her studies. It is exciting to see the confidence growing in this sweet child.
