

## Brandon Schuler

My name is Brandon Schuler. I bought my house back in the middle of 2019, and this has been a great place for me, my wife, and our fur babies. This has been our first house that I have bought and plan on being here for quite some time. I have served in the military from April 2001 till I got med boarded in Dec2019. I had a good run, but I was broken.

I have worked in the maintenance and hospitality field for the past 6 years and have a reasonable amount of knowledge in those fields. I currently have my associate degree in Business Management and getting ready to start my bachelor's in business and Finance.

I have served on the ARC for a little under a year and then served as the head of the ARC. And that knowledge helped me understand this community more. Serving on the ARC and now currently the board is a commitment that I'm prepared to take on. I believe that every single homeowner in this community has a voice, and I will work to the best of my ability to hear them and come to an agreement and understanding.

I appreciate your vote on the upcoming election and hope to also be hearing from all the homeowners in the upcoming monthly meetings.
