

HEALY™ PHASE 2 VAPOR RECOVERY SYSTEM E15 COMPATIBILITY

Assembly Bill 30 (AB 30) was signed into legislation in California on October 2, 2025 allowing for the sale of E15 fuel in California while CARB evaluates its environmental impact.

As California expands its fuel options, Franklin Electric is pleased to inform you that HEALY™ Phase II Enhanced Vapor Recovery equipment is compatible with fuel mixtures as noted in the following sections of CARB Executive Orders VR-201 and VR-202.

As stated in VR-201 and VR-202 Legal Language, “It is further ordered that the Assist Phase II EVR System not Including ISD shall be compatible with gasoline in common use in California at the time of certification. The Assist Phase II EVR System not including ISD is not compatible with gasoline containing more than 15 percent methanol, 15 percent ethanol, or 15 percent methyl tertiary butyl ether.”

CARB Executive Order VR-201 Legal Language revision AE signed can be found at:
