City Departments Come To Life During Holiday Decorating Contest

The various City departments participated in a Holiday Decorating Contest during December. It was great to see the festive look of these City Campus facilities – and the efforts of the staff who showcased their decorating skills.

Winners were selected in four (4) categories:

- Best DIY – Building, Engineering, and Information Technology departments (combined décor).
- Most CHILL(Y) – Service Department.
- Most Nostalgic – Finance Department.
- Best Individual Office – Paul Porch (Service Department).

Thank you to each participating department, and to Human Resources Director Mike Bergstrom and his mentee, Kate Felty, for their help with the contest.

The Engineering: Building, and Information Technology departments presented a grand entrance.

The Service Department was decked out in a white and blue winter wonderland.

L-R: The Finance team of Molly Snow, Maggie Osysko, Anissa Hansen, and Shana Creel won for Most Nostalgic.

The Community Services Department provided this inviting Christmas tree among its decorations.
