WHAT IS THE CHAMBER OF COMMERCE?

The goal of any Chamber is to assist businesses with their interests to build a healthier economy. The actions of the Chamber range from providing business support, workforce and leadership development, legislative advocacy, hosting networking opportunities, economic development, and also charitable works for the betterment of the community.

HOW CAN WE HELP YOU?

The Chamber of Commerce should be viewed as your business partner. It is a valuable tool for any business owner, organization, employee, and community member.

GIVES YOUR BUSINESS CREDIBILITY

According to American Business Magazine, statistics show that 63% of consumers are more likely to purchase from a business that is a Chamber of Commerce member, and 44% are likely to view that business more favorably. Becoming a member of your local Chamber will impact the perceptions of your business not only with consumers but other organizations in the community.

OFFERS A GREAT SUPPORT SYSTEM

The Chamber serves a crucial role in local government and can be a powerful voice for your business. A Chamber's main purpose is to reach a common vision and to collectively advocate for the issues that matter most to you and the area. They will work hard to improve the community by making your business and other businesses stronger.

MAKES NETWORKING EASIER

Another important purpose of a Chamber is to bring various professionals together to discuss their successes and even their challenges. Make it a priority to support and attend the local Chamber of Commerce events. This will help you stay up to date on opportunities affecting your community and will allow you to form relationships with other business owners and professionals.

SUPPORTS ECONOMIC GROWTH
