

## 2018-2019 SCHOOL LEADER PARTNERSHIP

**An initiative to bring superintendents, principals, and assistant principals together to learn from one another to secure the best education for Illinois public school students**

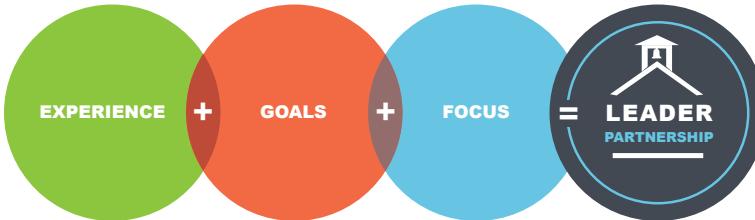

The DuPage ROE remains committed to providing support and resources to our leaders that shape the educational experiences for Illinois children. In 2015, the DuPage Regional Office of Education launched a collaborative leadership program to provide support to principals and superintendents in our county. The meetings focused on the work of Dr. Shelby Cosner, an associate professor at the Department of Educational Policy Studies at the University of Illinois in Chicago. Based on the Cycles of Inquiry, Dr. Cosner's work provided a framework that allowed participants to discuss common challenges and develop new approaches in their work as educational leaders.

**The goal of the School Leader Partnership:** To complement each other's leadership style and share ideas and discuss issues.

**The focus of the School Leader Partnership:** The inherent need for a community of leaders to support each other.

### What participants can expect from the School Leader Partnership:

1. The participants in each group will drive their agenda for the year.
2. The meetings will continue to have a component of Cycles of Inquiry.
3. The meetings will provide time for meaningful discussion in a trusting environment.
4. Time will be allotted to share common challenges and develop new strategies.
5. Coaching/mentoring opportunities will be available for interested participants.
6. Administrators' Academy Credit will be given for meeting attendance and participation.
