

Promoting a Culture of ATTENDANCE *at your school*

with Dr. Patricia Graczyk

Tuesday, August 10, 8am-2pm
Online | \$25

If students aren't in school, they can't benefit from the educational, social, and linguistic opportunities available in school.

Now, more than ever, school attendance is essential to student success in both the near- and long-term.

- This workshop, presented by Dr. Patricia Graczyk, an assistant professor of psychology at the University of Illinois at Chicago, is aligned with an MTSS framework and will focus on effective Tier 1 universal school-wide and classroom practices that promote school attendance for ALL students. It will also cover the role of a school attendance team and ways to use attendance data strategically to plan and monitor interventions within a tiered framework.
- This is a "hands-on" workshop with lots of examples and opportunities for discussion and application activities. It is open to any elementary and secondary level DuPage educator who plays a major role in addressing school attendance in their schools. Schools are encouraged to have a team participate, if possible.

AND MARK YOUR CALENDARS FOR THESE UPCOMING WORKSHOPS:

October 27: Elementary only-Tier 2 approach for at-risk students. For anyone from the August 10 group as well as school psychologists.

October 28: Secondary only-Tier 2 approach for at-risk students. For anyone from the August 10 group, as well as school psychologists

January 2022 (TBD): Elementary-Tier 3 Chronically Absent Students

January 2022 (TBD): Secondary-Tier 3 Chronically Absent students
