

Integrating LEGO® Education

Across the Curriculum

Thursday, October 26, 2023 | 9:00 AM–2:30 PM

*With technology constantly evolving,
how do we prepare students to thrive
in their careers and in life?*

Join us for an interactive workshop where we will discuss the neuroscience behind the **LEGO® Education** approach of learning through play.

We'll share how you can prepare your students to be future ready with the LEGO® Education Learning System. Through this system, **students learn to work collaboratively** and solve problems creatively, sparking **joy** in the classroom for both students AND teachers. Come explore the learning progression of solutions within the LEGO® Education Learning System as we share how you can integrate these solutions across the curriculum.

Location:
Center for Professional Learning
503 N County Farm Rd.
Wheaton, IL 60187

5 PD Hours

Dr. Colleen Cannon-Ruffo is an educational technologist for LEGO Education. With 29 years of experience in the field of education, Colleen is passionate about the potential for technology to transform lives and learning when delivered with integrity. Her role as an educational technologist allows her to explore how innovative and emerging technologies can be used to actively engage students in their own learning. From SMARTBoards to clickers, from Tablet PCs to Apple iPads and Chromebooks, from Robotics to MakerSpaces, she has been fortunate to be on the forefront of innovations in educational technology throughout her entire career.
