

IMPLEMENTING IL PRIORITY STANDARDS WITH *powerful* TOOLS, STRATEGIES, AND RESOURCES

MATH GRADES 3-5

Thursday, January 20, 2022
3:30–5:30 p.m. | Via Zoom

A link to the recorded session will be sent to all registrants following the workshop.

Math standards have been carefully crafted to help students build a deep understanding of mathematical concepts through Focus, Rigor, and Coherence. Join us in this session to:

- Learn about new resources that help make more informed curriculum decisions, including how to best handle unfinished learning.
- Explore the use of powerful tools to help school districts facilitate vertical articulation leading to research-based action plans.
- Dig deep into the 3–5 Standards and the prioritizations specific to this grade band.
- Presenters: Cheryl Beasley and Kristen Clegg
