

The DuPage Regional Office of Education Presents

**NGSS Science and Engineering
Practices Workshops
for Grade 6-12
Science and STEM Teachers**

**November 5 and 19, 2018; 8:30 am to 3:00 pm
Hinsdale South High School, Darien**

For information contact: Dgreenleaf@dupageroe.org

Get Inspired: Science & Engineering Practices 2 & 3, November 5

Develop practical ways to increase the effectiveness of teacher and students' use of models and model-building in your classroom. We will also explore ways to make scientific investigations less rigid, and more authentic and meaningful, without sacrificing tons of class time. *Presenter: Dr. David Bonner*

Brush Up on Science & Engineering Practices 6 & 7, November 19

Participants will revisit the requirements that satisfy Science & Engineering Practice 6, Constructing Explanations & Designing Solutions, and Practice 7, Engaging in Argument from Evidence, while exploring numerous ways to modify your current curriculum to incorporate them. *Presenter: Tracy McDonald*
