2019

GENCYBER TEACHER CAMPS

Inspiring the Next Generation of Cyberstars!

College of DuPage Continuing Education is proud to present cybersecurity camps for teachers this summer through a grant awarded by the National Science Foundation (NSF) and the National Security Agency (NSA).

Teacher GenCyber Camps at COD
Give your students the tools they need to be safe and responsible online! GenCyber Camps are designed for teachers who are passionate about bringing digital citizenship and online safety information into their classrooms.

Expert faculty from COD's Computer and Information Technology (CIT) program and Homeland Security Training Institute (HSTI) guide you through hands-on activities using current technologies and introducing important and timely topics such as:

» **Privacy and security**
» **Safe browsing**
» **Cyber ethics**
» **Data security**

College of DuPage

(630) 942-2266.

GenCyber Camps are great for teachers.

- Attend for free.

- Receive a $300 stipend for five days' attendance and ongoing curriculum development.

- Get a Chromebook to take back to your classroom.

- Gain access to all curriculum developed by camp teams.

- Put what you learn to work by returning to campus to deliver one unit of a student camp session.

- Enjoy lunch and snacks each day.
