

The Regional Safe School of DuPage County, Partners for Success was created in 1997 in response to Illinois legislation enacted (The Safe Schools Act) to reduce school expulsions. This legislation provided the funding and support for communities to explore options to expulsion and multiple suspensions, for students in grades 6-12.

Partners for Success provides a multi-platform learning environment for our students, combining distance learning, small group instruction, and individual supports and strategies focusing not only on academic success, but also life skills, behavior interventions and strategies to help students successfully transition back to their home school and continue on their educational career.
