

The EFTEA Investment Marketplace 2016

—ERIC FRANKLIN—
ENTREPRENEURIAL ACCELERATOR

2017 Investment Marketplace marks our 3rd Annual! Since we premiered this event in 2015, it has been recognized as an innovative and unique model for bringing together lenders, existing business owners, emerging business owners and entrepreneurial resources from across the state to engage in real-time activities that can support business growth.

Over the past two years we have drawn 29 area lenders and investors, federal, state and local economic development officials and 84 of the region's growing businesses and entrepreneurs. Our Funder's Lounge allowed these businesses to engage one on one with lenders to discuss their business growth plans and financing options through a speed-dating simulation. 4 minutes of focused dialogue allowed individual businesses to meet with up to 15 lenders in less than 60 minutes.

The feedback from our speakers, attendees and lenders was extremely positive. So, thank you for helping us to make the EFEA Investment Marketplace a great success!

Following are a few of the lenders' remarks . . .

"... it's a great way to network among lenders. I think the lenders' conference we have at the beginning is excellent. I also think that the people that participate and come here are serious about their business and wanting to grow it."

"Yes we would recommend that other lenders attend because there is a good share of information, a good networking event, and most importantly the number of potential entrepreneurial clients that can be met during this event is greater than any other event that we have participated in."

"This is our second year doing this. Last year we had actually worked with a couple of prospects to get them funding, get their businesses the money. This year again was another good year we had some really good prospects some folks that were well prepared . . ."

"I think it's a great opportunity to get in front of folks who could potentially have a great business and opportunities. I also think it's a great way to give back to the community and allow them to see what a bank is looking for."

"... we got to meet a lot of people that are looking for a potential loan. We had great conversations. We were also able to network with the people here so we will be able to exchange a lot of information that will help us all grow."

T. Bryan Harrison, VP, M&T Bank

Betty Tayman, VP, M&T Bank

“Was this event of value to you and why?” **Bryan:** “This is our second year doing this. Last year we had actually worked with a couple of prospects to get them funding, get their businesses the money. This year again was another good year we had some really good prospects some folks that were well prepared come in and talk to bankers and to get money and to help their business out. So we’re hoping to again work with some of the businesses that were here to help them make their dreams come true.”

I think it was a great exercise for the business owners, also good in terms of getting our information out to them. *“Were the small businesses that you met prepared with the information that your bank is looking for when making loans?”* **Aaron:** “I’d say

probably about 50-50. I had some folks that were more highly prepared, I had some folks that still have little bit of work to do.”

“Would you recommend other lenders attend this event next year?”

Aaron: “Sure, I think it’s a great opportunity to get in front of folks who could potentially have a great business and opportunities. I also think it’s a great way to give back to the community and allow them to see what a bank is looking for.” *“Will you join us next year?”*
