

SMCIL Receives Donation of Technology to Support Local Veterans

Balancelogic a Veteran owned company, donates technology equipment to help create a new Veterans Training Center in St. Mary's County

Waldorf, Maryland, April 20th, 2017 - Balancelogic and The Southern Maryland Center for Independent Living (SMCIL) are elated to announce a partnership to create a local Veterans Training Center which will be located on premise at the SMCIL office in Mechanicsville, MD. This training center is intended to provide local Veterans with the technology tools, training, and resources, like access to job training, that can help enhance and shape their lives and futures.

Balancelogic, a Southern Maryland small business support services company, has donated a host of technology equipment including desktop computers, laptops, as well as color and black and white printers to help support this Veterans Training Center. In addition, Balancelogic will provide its Managed IT Services to support the technology training center at no cost to SMCIL. Along with the technology equipment, the employees at Balancelogic volunteered their time to help build out this training center by painting and revamping the existing space.

"Balancelogic and SMCIL have been working together for several years as we have been providing them with our full-service IT Managed Services", says Bill Campbell. "So, when we talked about this idea, it was an easy decision. "

"We are excited to be able to partner with Balancelogic and offer our Veterans a Training Center where they can receive the supports to accomplish their personal goals. We are honored to give back to those who served our country", said Lidiya Belyovska, Executive Director of SMCIL.

A ribbon cutting ceremony will be held at the Southern Maryland Center for Independent Living Office located at 38588 Brett Way, Suite 1, Mechanicsville, MD on May 12th at 5:00 pm and is open to all who would like to visit this new local resource.

Commenting on the donation, Balancelogic CEO Bill Campbell said, "I am glad that we are able to help the Southern Maryland Center for Independent Living and as a Marine Corps Veteran myself, I am honored to help our Veterans."

About Balancelogic

Founded in 2004, Balancelogic is a Veteran Owned and leading provider of small business services solutions to Southern Maryland and Howard County areas. Our focus is to provide our clients with high quality services that result in cost savings and business process efficiency. About Southern Maryland Center for Independent Living

Southern Maryland Center for Independent Living is a nonprofit organization created by and for people with disabilities. They are an advocacy, information and educational center that promotes independent living and empowerment for people with all types of disabilities. Southern Maryland Center for Independent Living provides residents of Calvert, Charles and St. Mary's counties access to use community resources and services to enhance their independence while pledging to provide the highest level of instruction to consumers with disabilities in life skills, job readiness training, peer mentoring, and peer supports. In 2013, the center started a Disabled Veterans Support Network which hosts meetings every second Friday of the month at SMCIL's office. Veterans from Southern Maryland are invited to share a warm meal, gather information and socialize.
