

ROAD SCHOLAR® and *Share The Care™*

have teamed up to offer **TEN caregivers an opportunity to win a Road Scholar Educational Travel Program**

Road Scholar and **Share The Care™** have joined forces to offer ten deserving caregivers (both unpaid family caregivers and nominated individuals who are part of a Share The Care Team) a unique respite opportunity to take part in a Road Scholar educational travel program.

Participating in a Road Scholar program is a special experience of learning and community and are a wonderful way to feel revitalized, to make new friends and to spark creativity and intellectual curiosity.

It is a unique Road Scholar experience that could be especially helpful for caregivers who are experiencing feelings of depression, isolation and anxiety.

These grants are for caregivers who are 50 years of age or older and each provides an award of up to \$1,300 to use toward a U.S.-based educational adventure that costs no more than \$1,400.
