## New Brands - *Nature's Variety, Lotus, & Mascoti*

We are proud to bring in Nature's Variety this month of August, and excited to work with them! Nature's Variety is empowering people to transform the lives of pets. As a leader in raw nutrition, they believe wholeheartedly that it starts with food. That's why they are committed to making it possible for more pet parents to feed their own pets natural, holistic pet food guided by the unmatched nutrition of raw.

Another great brand that we are bringing in is Lotus. Family owned and operated since 2003, Lotus was created for love of pets. They knew that they could make something not only better, but healthier for their animals. Being run by very hands on owners, they learned all aspects of making dog and cat foods. Making smaller batches of made to order food means that the quality of the product is maintained, allowing them to decide what ingredients will go into them. Striving to bring only the best hand crafted products they can to the table for your animal, and their nutrition.

Closing this months list of new brands we are bringing in is Mascoti Pet. Mascoti Pet was formed from a large family tree of beef ranchers. Their dog chews are harvested from their family's cattle slaughter facilities. Generations of experience from producing quality beef for supermarkets, restaurants and export helped them to make the most unique and best quality dog chews found in the market place. They don't cut corners or skip steps and claim their customers know the difference.
