

CoreMark is thrilled to announce the much anticipated Sexual Harassment Prevention Training Module is now live! The Training360 Learning Management System delivers high quality courses to satisfy training requirements for employees of all levels, with easy-to-understand videos and tools for management tracking. Thru our partnership with ASCCA, all ASCCA members have access to this valuable training module at no additional cost.

If you previously reached out to a member of our team for access, you will be receiving a separate contact with information on how to access the system. If you have not and would like more information, please reach out to me directly to prevent a long email thread. You will need to designate one user from your organization to have dedicated access to the system, so please let us know who we should grant that access to on your behalf.

Course Topics Include:

- Sexual Harassment Prevention Training for supervisors AND staff that satisfies requirements under SB 1343 (**New 2019 Law!**)
- OSHA Compliance and Safety Training
- Workplace violence and stress prevention
- And more!

As a reminder, under new [CA Regulation SB 1343](#), **all employers with 5 or more employees** must have **ALL** staff complete mandatory Sexual Harassment Prevention Training and Education in 2019 (not just managers/supervisors). Not only does this training now have to be completed by your staff every two years, but it also applies to temporary or seasonal employees.

This service is available at no cost to ASCCA members! If you know of any other repair shops that have been thinking about joining ASCCA, maybe this valuable service will help with their decision to join!

Mat Nabity - Executive Vice President
