

The Clinic of Atlanta Speech School

Speech, language, and literacy are important to your child's success in school and the world! Certain speech, language, and hearing disorders are highly correlated with learning and reading challenges, making early detection and intervention of these difficulties essential. Nationally and state certified speech-language pathologists will be available to screen students, three years and older, at Christ the King on Tuesday, September 20 and Thursday September 22. The purpose of the screening is to identify children who may have speech, language, literacy, and/or hearing problems that may require further in-depth testing. You are able to choose from two screening options:

Option 1: Speech and Language Screening · Cost \$50 · Available for children 3 years old and older · Screens hearing, receptive language (understanding), expressive language (verbal expression), and articulation (production of speech sounds)

Option 2: Speech, Language, and Literacy Screening · Cost \$65 · Available for children ages 3 years old to 5 years, 11 months · Screens hearing, receptive language (understanding), expressive language (verbal expression), and articulation (production of speech sounds) · In addition, we will screen print knowledge (child's understanding of books, printed letters, and words) and phonological awareness (child's understanding of the relationship between letters and speech sounds and how sounds can combine to form words)

As part of the screening fee, you will receive a written copy of the results, including recommendations if there are concerns in the area(s) of speech, language, literacy, and/or hearing. Further explanation of the results and recommendations via phone conference can be scheduled upon receipt of the written results at an additional fee of \$75.

If you are interested in having your child screened, please fill out the form below and return it to school **on or before Tuesday, September 13, 2022**.

Sincerely,

Erin Spence M.C.D., CCC-SLP
